I am an enthusiastic and detail-oriented Frontend Software Engineer seeking an entry-level position with Company to use my skills in coding. Self-taught Software Engineer which has always found coding intuitive and have pushed myself to learn the most effective ways to achieve a result. using current best practices in Web development. Fast learner hard worker and team player who is proficient in an array of scripting languages and tools and can quickly integrate into a team so I can provide value to the company and customers. For this reason, I am looking for a company willing to offer me a placement among their developers. In return would offer my full commitment, and be a pleasant and friendly addition to you team. I am therefore currently looking for job or any offers as a front-end developer
